Why do I need to supplement?

and Nill

Facing an Urgent Health Crisis

- Modern diet of processed convenience foods lacks many nutrients the human body needs to thrive
- · Three out of four people fall short of minimum nutritional requirements
- The results: sluggishness, poor sleep patterns, reduced ability to fight infection, slow healing and excess weight gain, among others
- Epidemic rates of cancer, heart disease, diabetes, obesity and other devastating, often preventable diseases

The Need to Supplement

- · Clinically shown to promote optimal fitness
- Canadian Medical Association recommends a balanced daily supplement to help maintain good health
- No longer just a good idea essential to maintaining health and vitality

27% of Canadians use dietary supplements on a daily basis, and the number is growing.

How do I know Reliv products work?

Byron Wyant Germantown, New York

"I was diagnosed with diabetes 23 years ago. Over the years, I developed high blood pressure, cataracts and other health problems. In January 2009, I started taking Reliv. Since then, my blood sugar and blood pressure have improved and my vision is better. I wake up every morning with tons of energy, can outwork people half my age, and feel happy all the time. **Reliv** gave me my life back!"

Jeff Bauman Drayton, Ontario

"I always valued good nutrition so I started taking Reliv at the same time as my wife — who got terrific results. I noticed increased energy within the first few weeks. Over time I realized that I'm able to handle stress better, think clearer and rarely get headaches. I'm just as excited about the prevention benefits. **High blood pressure and diabetes run in my family and with four young children, I want to be healthy for them for a long, long time.**"

Annette Wells Unionville, Ontario

"I always considered myself relatively healthy. When I started on Reliv, it was for prevention. So I was delighted to get wonderful results with allergies, which I thought would never get better. Also, being able to breathe with ease this past fall when I completed a bike ride through southern Ontario, from Detroit to Niagara Falls is something that I wouldn't have been able to do before Reliv. With the help of Reliv, I look forward to dying 'young' at a very old age!"

Lynette Baldwin Peoria, Arizona

"I was sick for 18 years, eventually diagnosed with lupus. I hurt from head to toe, inside and out. **Within months of starting on Reliv, I was back enjoying an active lifestyle.** Ten years later, I'm a happy, healthy grandma! After seeing my results, my mother, who suffered from the same disease for decades, also started on Reliv. Today, she's able to keep up with her great grandchildren!"

Annette Stegenga Jarvis, Ontario

"Before Reliv, I suffered severe fatigue. I would wake up at 7 a.m. to get my girls off to school, drag myself through the day, take a long nap before supper and be in bed by 8 p.m. After a week on Reliv my energy improved to the point that, after three months, I added four hours to my day. I wake rested, and have experienced relief from PMS symptoms and stiffness in my hands. I will never be without these products!"

Freddy Worthington Springboro, Ohio

"Due to inactivity and weight gain, I suffered a back injury and had trouble getting around — I was a couch potato. Then I discovered Reliv. I had more energy, became more active and dropped 60 pounds. I haven't taken a sick day in over four years. **To top it off, last year I** won a bronze medal sprinting in the National Senior Olympics!"

How do I know Reliv success is real?

Kara & Zak Grosfield Belgrade, Montana

"As newlyweds in our early twenties, we didn't want to be in the same position as many people twice our age who, after decades of working for someone else, were stuck in debt and barely making ends meet. The month we earned \$12,000 with Reliv, we both quit our jobs, knowing we'd never earn that much as a property manager and dental office receptionist! What's more, being in business for ourselves has allowed us the freedom and opportunity to literally travel the world and live each day according to our own schedules. We know that our income will continue to increase steadily over time — and the hard work we put in today will pay us dividends for the rest of our lives!"

Alla Yumshtyk Toronto, Canada

"I joined Relìv while I had my nutritional practice, hoping to earn extra income, work less and have more time with my family. I liked the idea of helping other people become financially independent. After joining as a Master Affiliate, I began sharing Relìv even before I got my health results. It allowed me to bring home an extra \$25,000 in my first year. **Now I average between \$2,000 and \$4,000 a month, have been on four all-expense paid trips and enjoy the freedom of working this business around my family.** Reliv has a proven Success System, and it's the key to helping others get what they want. You don't have to do it on your own — I love this concept!"

Amanda Schwarz Columbus, Nebraska

"Eight years ago, I saw an opportunity that would allow me to come home and raise my family. Within one year of starting my Relìv business, I was earning enough income to leave my office job. I now average \$6,000 a month with Relìv. I set my own schedule, and am involved in all of my children's activities. We recently took our children on an all-expense-paid Relìv trip to Paradise Island in the Bahamas, where we made memories that will last a lifetime! Relìv enables me to help support our family financially from home modeling for my children what can happen when you work hard and focus on others — and it inspires me knowing that I get to help other people do the same."

Gary & Laura Lynn Martin St. Clements, Ontario

"We weren't looking for a business when friends introduced us to Reliv four years ago. We felt like we were too busy. But when we saw the compensation plan, we recognized an opportunity to supplement our income, and started as Master Affiliates, which was the best investment for our time. **By the end of the first year, we averaged \$1,000 a month in all forms of income working part time.** Four years later, we achieved Presidential Director status and are enjoying a solid income. By sharing this opportunity with others and offering them hope, even more lives will be changed."
